

15 June 1961

MEMORANDUM FOR THE RECORD

SUBJECT: Recall of just-issued 41B Annual

25X1A9a Dan Clinton phoned 14 June to say that Army, Navy, and Air had all put stops on departmental dissemination of this Annual, mass disseminated by OCR as of 1 June. After a foned report of this from [REDACTED] and receipt of his own copy on 12 June, Clinton consulted with INR area specialists and concurred in halting dissemination, issuing stop instruction in State although some State dissemination might have been made. The point appeared to be not so much a matter of actual content as of the dissemination of the Annual just after the coup not treated by the Annual. After discussion in OBI the AD directed PGB to make a poll of Army, Navy, and Air to establish that they would join in a Committee consensus to have 25X1A9a OCR promptly recall all copies of subject. All concurred by fone, [REDACTED] making the point that ACSI objected to some of the Annual phraseology as well as feeling that the timing argued against dissemination. Per AD, KVG was instructed to direct OCR to issue a recall notice. As a matter of interest, the Navy member received the Annual 6 June, but Army, Air, and State not until 12 June.
